4. And has the first slide

5. With three items already on it

* This is a grouping without a heading

∗ This is a grouping without a heading

∗ It is possible to change the bullets in itemized lists

* This is a grouping without a heading

* It is possible to change the bullets in itemized lists

* It is even possible to use graphics files as bullets

Single Item, Heading

You can have background color for the pages, starting any time.

Now

Now we have

Now we have an example

Now we have an example of an unstructured grouping

Now we have an example of an unstructured grouping

with a forced new paragraph with space before it.

Now we have an example of an unstructured grouping

with a forced new paragraph with space before it.

Note also that the side strip can be removed

Single Slide, Heading, Centered

Automatic theorem numbering works when theorems are in single slides, such as this one.

Theorem 1. *Math is great.*

The bottom strip can also be removed.
